3rd

GLOBAL MINOR USE SUMMIT

The Fairmont Queen Elizabeth Hotel
Montreal, Quebec, Canada
October 1-4, 2017

PROGRAMME
Filling the Tool Box for Growers:
Developing Strategies for Specialty Crop
and Minor Use Programs and Harmonization
September 30th, 2017
16:00 – 18:00  Registration

DAY 1 - Sunday, October 1st, 2017
8:00 - 17:00  Registration
8:30 – 11:00 Pre-meeting on IESTI – Av. Van-Horne Room
11:30 – 12:45 Lunch (buffet) – Square Dorchester Room
13:00 – 14:10 Place du Canada Boardroom
Welcome and Opening Remarks by the following:

CHAIR: Marcos Alvarez
• Pest Management Centre (PMC) Executive Director – Marcos Alvarez
• Agriculture and Agri-Food Canada (AAFC) – Christiane Deslauriers, Director General, Coastal Region, Science and Technology Branch
• United States Department of Agriculture – Robert Macke, Deputy Administrator, Office of Agreements and Scientific Affairs, Foreign Agricultural Services (USDA-FAS)
• CropLife Canada/CropLife International – Pierre Petelle
• FAO Opening Remarks – Baogen Gu
• IR-4 Opening Remarks – Jerry Baron

14:10 – 14:15 Overview of the GMUS-2 work plan – Dan Kunkel
14:15 – 14:20 Purpose of the GMUS-3 and Objectives – Marcos Alvarez
14:20 – 14:45 Capacity Building Updates since the GMUS-2

MODERATORS: Jason Sandahl / Michael Braverman

Progress and outputs from the three Standards Trade Development Facility (STDF) capacity building projects
• ASEAN – Ngan Chai Keong – Malaysia
• Latin America – Adriana Castañeda - Colombia
• Africa - Paul Osei-Fosu – Ghana

14:45 – 15:15 Minor Use Programs, Development of dedicated minor use programs (including models & funding to establish such programs)

MODERATOR: Marcos Alvarez

Established Minor Use Programs – How did we get here?
• North American Perspective – Jerry Baron
• EU Coordination Facility - Jeroen Meeussen

Emerging Minor Use Programs – Which paths are being taken?
• Brazil – Carlos Alexander Gomes
• Australia – Kevin Bodnaruk

15:15 – 15:45 Health Break
15:45 – 17:30 Global Harmonization Efforts

MODERATOR: Dan Kunkel

15:45 – 16:15 Codex and OECD updates – Xavier Sarda (Chair of eWG)
• Brief overview of the Committee on Pesticide Residues eWG on Minor Uses final report from 2015 CCPR
• OECD Residue Expert WG Update including Guidance documents, new and updated

Link to Day 1 Presentations
16:15 – 16:30  JMPR work plan – Ian Reichstein
16:30 – 16:45  Codex Crop Group Update – Bill Barney
16:45 – 17:00  WTO SPS Committee: Recent work on Pesticides MRLs – Julia Doherty
17:00 – 17:15  International Agri-Food Network’s MRL efforts – Gord Kurbis
17:15 – 17:30  Wrap-up Day 1 and Review Day 2 Schedule – Dan Kunkel
18:00 – 20:00  Reception offered by Crop Life Canada and CropLife International – Terrace or Square Victoria Room

DAY 2 – Monday, October 2nd, 2017
Place du Canada Boardroom

MODERATORS: Janet Collins and Rebecca Lee

08:30 – 10:00  A Regional Look at the Regulatory Landscape: Enabling Current and Future Opportunities
08:30 – 09:00  Europe: Klaus Berend and Jeroen Meeussen
09:00 – 09:15  North America: Peter Chan and Rick Keigwin
09:15 – 09:30  Asia: Panpilad Saikaew
09:30 – 09:45  Africa: Lucy Namu

09:45 – 10:00  Latin America: Daniel Mazzarella

• Brief Information on BOGs: Moderators

10:00 – 10:30  Health Break
10:30 – 12:00  Breakout session #1 to discuss:

Key policy considerations, global data sets, incentives for industry and harmonization, communication. What are some of the key science and policy considerations of working cooperatively on regulatory reviews? Capacity needs for Regulatory, Industry and other data generators.

Breakout Group Meeting rooms: Rue McGill, Rue Sherbrooke, Rue Mansfield, Rue Saint-Denis, Rue Notre-Dame, Rue Sainte-Catherine

Leads for the Breakout Groups

Kevin Bodnaruk (AU)
Lois Rossi (US)
Jeroen Meeussen (EU)
Carlos Alexander Gomes (BR)
Sheridawn Schoeman (UK)
Magda Gonzalez Arroyo (LA)

12:00 – 13:30  Lunch Break – Square Dorchester Room

MODERATORS: Luc Peeters and Alan Norden

13:30 – 15:00  Plant Protection Industry Perspective: Successes, Challenges and Enabling Opportunities

Link to Day 2 Presentations

09:45 – 10:00  Grower consultants perspective: Matt Lantz / Caroline Harris

10:00 – 10:30  Health Break

10:30 – 12:00  Breakout session #3 to discuss:

- Databases, grower challenges, MRLs and access to pest control products, secondary standards, communication

Breakout Group Meeting rooms: Rue McGill, Rue Sherbrooke, Rue Mansfield, Rue Saint-Denis, Rue Notre-Dame, Rue Sainte-Catherine

Leads for the Breakout Groups:

- Rebecca Fisher (NZ)
- Cary Gates (CND)
- Kevin Bodnaruk (AU)
- Tom Prado (BR)
- Matt Lantz (US)
- Vivian Powell (UK)

12:00 – 13:30  Lunch Break – Square Dorchester Room

13:30 – 14:00  Report back from Breakout session #3: BOG Leads

14:00 – 17:30

MODERATORS: Lois Rossi, Alan Norden

Overview of the Recommendations from the Breakout Sessions

- Discuss and refine conclusions and recommendations with breakout groups
- Circulation of each group’s draft conclusions to all participants

Identification of key actions items from all Breakout sessions

15:30 – 16:00  Health Break

16:00 – 17:30  Development of the “Going Forward” Work-plan

17:30  Wrap-up of Day 3 and Review of Day 4 Schedule

DAY 4 – Wednesday, October 4th, 2017

Place du Canada Boardroom

MODERATORS: Co-chairs of the Summit (Marcos Alvarez, Dan Kunkel)

08:30 – 09:15  Presentation on the «Going Forward» Work-plan

- Wrap-up of Conclusions and Recommendations

Global Minor Use Priority Setting Workshop

MODERATOR: Jim Chaput

09:15 – 10:00

- Introduction to the 2nd Global Minor Use Priority Setting Workshop – Jim Chaput

Link to Workshop Presentations
- Introductions – ALL
- Priorities from the first Global Minor Use Priority Setting Workshop and progress to date – Dan Kunkel
- Guidelines and process for the 2nd Workshop – Jim Chaput / Mario Wick
- Update of Global minor use priority database; explaining how we narrow down the list – Mario Wick / Jim Chaput

**Information for the Field Tour participants - Luc Urbain**
Background and Objectives of Global Minor Use Summit III (GMUS-3)

Background

The Canadian Agriculture and Agri-Food Canada Pest Management Centre will host in partnership with the United States (US) IR-4 Minor Use Program1 and the US Department of Agriculture Foreign Agriculture Services the third Global Minor Use Summit (GMUS-3). The summit will facilitate another international forum to further advance efforts to address minor use issues.

Minor uses of pesticides are pesticide uses required to control pest and disease problems in low acreage specialty crops. However, growers of these crops lack access to cost effective solutions for managing pests and diseases on their crops as the crop protection industry claims that the low acreage of minor uses of pesticides often acts as a disincentive for the return on investment to conduct the research required to register products for minor uses in specific.

The previous Global Minor Use Summits (2007 and 2012) were critical to garner support in addressing minor use issues around the world. They highlighted and solidified greater global communication and cooperation to address the issues associated with minor use of pesticides including harmonization of pesticide standards and regulations that support trade. These summits have focused on three core principles to support minor uses:

1. Technical activities such as use of crop grouping, data sharing guidelines, and capacity building;
2. Collaboration activities such joint data generation, regulatory joint reviews and work shares, and other work among multiple countries; and
3. Policy considerations that support minor uses, such as data requirements and other regulatory approaches.

While much work has been done to address these issues, there are still numerous and emerging challenges. This is because of the steady increase in the interdependence among countries resulting from the increasing liberalization of trade and capital markets. In this global economy, pesticide residue

---

1 IR-4 is supported by the National Institute of Food and Agriculture, U.S. Department of Agriculture, under award number 2015-34383-23710 with substantial cooperation and support from the State Agricultural Experiment Stations, USDA-ARS and USDA-FAS.
limits (MRLs) are both important domestic standards and vital trade standards for agricultural commodities. At the same time, many countries (and group of countries) are creating or modifying their own systems of establishing and enforcing MRLs on imported food crops. As a result, more data are needed to determine the extent and safety of pesticides on traded commodities and has added to the challenge of generating data for minor uses and consequently grower access to these tools.

While GMUS-3 will continue to review and revise the technical and collaborative efforts identified in past summits, it will aim to put greater emphasis on policy considerations that can help specialty crop growers around the world obtain access to safe and modern tools to produce their crops, and to promote trade among nations.

**Purpose of GMUS -3**

The next GMUS will focus on global agreements for pesticide policy, further define procedures and methodology to help deal with minor use issues, seek solutions that provide growers with access to a wide range of pest management innovations to grow their crops (minor uses) and removing barriers to promote free movement of commodities between nations. The purpose of the Summit is to provide a forum for the international exchange of information on current activities that address minor use issues and to identify future opportunities and challenges in the area of technical and cooperative areas and to promote policy considerations.

**Summit objectives include:**

- Update on the action items and 5-year work plan from the first two summits and from the first Global Minor Use Priority Setting Workshop.
  - Progress and outputs from the three Standards Trade Development Facility (STDF) capacity building efforts
  - The Codex Committee on Pesticide Residues and JMPR
    - Outputs from the electronic working group on minor uses, including minor use definitions and number of field trials requirements and areas to promote MRLs for minor uses.
    - Progress on Codex crop grouping
    - Report of the first Codex pilot joint review project
  - Priorities from the first Global Minor Use Priority Setting Workshop and progress to date
    - Priority areas, and update of Global database
    - Provide a forum for the Second Global Minor Use Priority Setting Workshop
Technical and cooperative areas:
- Overview of working groups – Global needs, Capacity development and Communication.
- Approaches and examples for international data sharing and research collaboration
- A focus on limiting duplication of efforts, robust data sets, data review.
- Data exchangeability
- Enhanced involvement of all stakeholders, especially specialty crop grower’s/commodity associations in identifying needs and facilitating solutions to the minor use problems.
- Re-evaluate capacity building via updates and strengthen working groups and networks to more efficiently address specialty crop grower needs. Considerations for a “Phase 2” of capacity building.
- Review and Refine Industry partnerships in collaborative research efforts that address minor uses.
- Review, discuss and implement guidance on crop groups and extrapolation.

Policy considerations:
- Approaches to enhance involvement of policy makers who can help in facilitating solutions to the minor use problems.
- Advance the topic of international harmonization through cooperation and transparency in establishment of MRLs and risk assessment by regulators
- Promote acceptability to exchange field trial sites for residue and efficacy studies
- Share and implement criteria standards that define and recognize minor uses.
- Develop a timeline for implementation of new policies for minor uses.
- Discuss policy aspects to enhance the registration of minor uses including areas such as:
  (i) Development of dedicated minor use programs (including models & funding to establish such programs)
  (ii) Identify incentives from regulatory authorities that will encourage registrants to register minor uses.
  (iii) Management of product liability to facilitate minor use registrations, such as sharing of efficacy and crop safety data across countries.
  (iv) Implement guidance for using crop grouping and data extrapolation on an international basis.
STRUCTURE OF THE SUMMIT

The Third Summit will have a plenary session, group discussions and a “needs” workshop.

- The **plenary** session will provide updates from various minor use and government agencies regarding progress of the key action items identified in the past Summits and provide an overview of the objectives for this summit.
- The breakout sessions will focus on the key areas of interest involving the Regulatory, Industry and Grower sectors.
  - Each breakout session will start with a plenary session to outline: progress, challenges and opportunities in each of the sectors.
  - Some topics of consideration include capacity building and data sharing, prospects for global data generation hubs; loss of products, Databases, grower needs, MRLs and access; Key policy considerations, global data sets, specific incentives for industry and harmonization.
- Breakout groups will provide summaries and recommendations from their sessions and then the attendees will identify key action items to carry forward in a “going forward” workplan.
- The last day will be a follow-up global workshop to further discuss and refine priorities of grower needs identified from the First Global Minor Use Priority Setting Workshop.

PARTICIPANTS

More than 200 participants from over 30 countries will be in attendance of the summit. The organizers expect strong participation by all parties listed below, especially by developing countries.

- Government pesticide regulators and Codex and FAO/WTO members
- Crop Protection Industry representatives
- University and crop advisors
- Agricultural producers (growers)
- Other consumer and environmental groups

HOST IN PARTNERSHIP WITH

Agriculture and Agri-Food Canada, the US Department of Agriculture Foreign Agricultural Services (FAS), the USDA sponsored IR-4 Project (IR-4).
The GMUS 3 would not have been possible without the support of the following Organizations.
